ASSIGNMENT

WHEREAS, by an assignment from the inventors (Lee J. Hall on August 19, 2015, Jay Paul Deville on August 24, 2015, Maria Inia on September 2, 2015, Sergey Sheyko on September 1, 2015, and Michael Rubinstein on September 1, 2015) recorded in the United States Patent and Trademark Office on Reel 036754, Frame 0271, to Halliburton Energy Services, Inc., (having its principal place of business at 3000 N. Sam Houston Parkway E., Houston, Texas 77032-3219 and hereinafter referred to as "Halliburton") is the sole owner of all right, title and interest in and to a certain invention titled WRINKLED CAPSULES FOR TREATMENT OF SUBTERRANEAN FORMATIONS (the "Invention"), for which a PCT International Patent Application has been filed as PCT/US15/48135 (Attorney Docket 2015-IPM-098438 U1 PCT);

WHEREAS, Halliburton and The University of North Carolina at Chapel Hill (having its principal place of business at 109 Church Street, Chapel Hill, North Carolina 27516, and hereafter "the University") have agreed that both Halliburton and the University should have equal right, title and interest in and to the Invention by virtue of each having employees that are among the inventors; and

WHEREAS, the University is desirous of acquiring one-half the right, title and interest in and to the Invention, International Patent Application No. PCT/US15/48135, any and all national phase applications filed based on International Patent Application No. PCT/US15/48135, and any patents that may be granted for the Invention in the United States and in any and all foreign countries;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, Halliburton hereby assigns and transfers unto the University one-half its right, title and interest in and to the Invention in the United States of America and its territorial possessions and in all foreign countries, and one-half its right, title and interest in and to International Patent Application No. PCT/US15/48135, any and all national phase applications filed based on International Patent Application No. PCT/US15/48135, and one-half its right, title and interest in and to any and all patents which may be granted for the Invention in the United States and its territorial possessions and in any and all foreign countries. For the avoidance of doubt, both Halliburton and the University shall have equal right, title and interest in and to the Invention,

International Patent Application No. PCT/US15/48135, any and all national phase applications filed based on International Patent Application No. PCT/US15/48135, and any and all patents which may be granted for the Invention in the United States and its territorial possessions and in any and all foreign countries without accounting to the other.

Halliburton hereby authorizes and requests the Patent Office Officials in the United States and in any and all other countries to issue any and all of said patents for the Invention, when granted, to Halliburton and the University as co-assignees of the entire right, title and interest in and to the same, for the sole use and enjoyment of Halliburton and the University, their successors and assigns.
